Clawgear's goal is to develop and produce the best possible equipment to support our comrades in their daily work, at home and far away from home, no matter how demanding the conditions may be. Feedback from operators around the world allows us to constantly react to the latest challenges and to develop innovative solutions and concepts.

Our internal R&D department enables us to develop equipment from first drafts and concepts to the finished product at our own tailor's shop. In addition to our regular product line, we create a variety of customer-specific products for various authorities including special forces units, SWAT units, regular police & military as well as defence companies.

The *ISO 9001:2015* is the established and worldwide recognized standard for certifying quality management systems. TMH Trading GmbH obtained this certification in 2018, while optimizing our processes and thus increasing the competitive position of our company. What's more, the standard forms the basis for ongoing improvements in daily routines and assures standardised processes for product development and creation.

OPERATOR

COMBAT SHIRT

DESIGN

The Operator Combat Shirt has been developed for one of our customisation projects. We implemented lots of operator feedback and combined them with latest fabric developments and textile engineering cognition. The result was so impressive that we decided to add this combat shirt to our regular product line as well. The sleeves and sleeve pockets have been completely newly designed and feature articulated ergonomic design for even better comfort and mobility. The FR knit fabric for torso also goes into the latest development stage with even better performance in terms of moisture wicking and sweat absorption while still keeping it durable and corresponding to EN ISO 14116.

MATERIALS

Sleeve: 50% Polyamide, 50% Cotton (Mil Spec NIR NYCO blended fabric)

Torso: 60% Modacrylic, 35% Viscose, 5% Elastane (Flame retardant (FR) fabric)
(except German Flecktarn) // YKK Zipper

MK.II OPERATOR

COMBAT PANT

DESIGN

The Mk.II Operator Combat Pant is the result of a close co-operation with various SOF operators and sets the focus on its fit and versatility. The addition of stretchable elements massively exceeds the mobility of the operator and makes movements incredibly smooth. The trousers have many proven features such as a waist-adjust system or the sophisticated knee section with internal height adjustment, but also many newly developed features such as the integrated stretch areas, an improved pocket concept and a completely new tailoring.

MATERIALS

Main Fabric: 50% Cotton, 50% Polyamide (Mil Spec NIR NYCO blended fabric)

Strech: 93% Polyamide, 7% Polyurethane // Outside knee area: 500 Denier Nylon Fabric (except German Flecktarn) // YKK Zipper

BATTLE PROVEN

RAIDER MK.IV

FIELD SHIRT

DESIGN

Raider Mk.IV Field Shirt kept us on our toes for quite a while because the requirements from different operational tasks and operators were often contradictory to each other. We decided to go for the lightest and most versatile solutions and combined them with latest textile engineering advancements for best performance and versatility under battlefield conditions. The sleeves feature articulated ergonomic design for even better comfort and mobility.

TRUSTED WORK

Apart from his technical equipment, a soldier's most important combat item is his body. That is why we set out to develop gear to defend and support the body as well as possible, while increasing each individual's effectiveness.

WEAR

MK.II INSTRUCTOR

SHIRT

DESIGN

The Instructor Shirt has been developed for use at shooting ranges and training facilities. We designed this unique shirt to fulfil requirements of comfort and utilitarian configuration. The Instructor Shirt is exceptionally versatile in its capacities. It features velcro mounting points and zip pockets on both sleeves. A hidden side pocket for mobile phone including cable outlet has also been included.

MK.II INSTRUCTOR

SHIRT LS

DESIGN

Inspired by the popularity of the Mk.II Instructor Shirt, the long-sleeved version was developed as an extremely versatile shirt, which is primarily worn on the shooting range and for instruction services. Due to its versatility, it is also suitable for a multitude of other tasks, including light tasks. The very pleasant fabric of the torso also offers a very high level of comfort under plate carriers.

MILVAGO MK.II

FLEECE HOODY

DESIGN

Our Milvago Hoody demonstrates, that a fleece jacket can be worn as a top layer. The outside and the inside material have been constructed to guarantee the necessary robustness and to optimize the wearing comfort with a high thermal output. The front pockets with two way zips can be reached at any time - even when wearing a back pack or chest rig. This all-rounder also includes elasticated cuffs and a waist adjustment.

DEALER REQUEST

HOW TO BECOME A DEALER

Selected retailers profit from attractive wholesale conditions. To start the process of becoming a registered dealer with us, please complete our online dealer application form at clawgear.com. Describe your business activity in detail as this is an important decision criterion for setting up any account.

A wholesale account is only available for retailers with appropriate infrastructure (brick and mortar shop or well organized webshop) and authorisation by the local authorities. Business activity has to be pursued full-time, product line must contain quality goods which are largely available from stock. We do not sell to any dealers conducting business out of their residence. Associations, martial arts schools and gyms, security companies, event and course organizers, drop shipment businesses, surplus dealers and other unrelated industries don't qualify for a wholesale account. Authorized retailers must be able to maintain competent advice to customers and aftersales services including technical first level support.

APPLICATION PROCESS

You can apply for your dealer account in just a few steps:

01 Visit our website.

02 Choose your country on the very top of the page.

03 Click the „Dealer“ button on the right side navigation.

04 Fill out the „Dealer Application Form“ online.

05 Get a response as soon as possible.

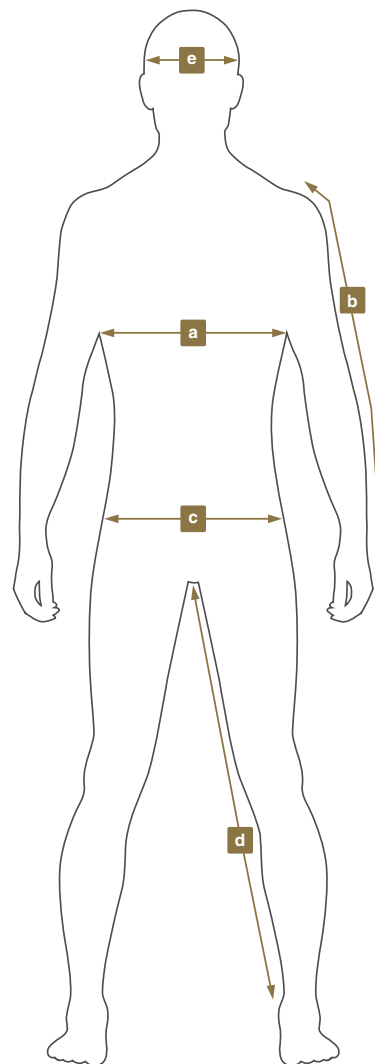

INFORMATION

SIZE CHART

Take care to make all your measurements close-fitting. Dimensions are in cm, length of pants also in inch. Grey colored figures show your own body measurements.

HOW TO MEASURE CORRECTLY

- a Chest size / circumference**
Circumference of chest at armpit height.
- b Sleeve length**
With arms slightly bent, measure from shoulder joint along the outside length of arm, to the wrist.
- c Waist size / circumference**
Circumference of waist below the navel.
- d Inseam / leg length**
Measure from your crotch to your ankle.
- e Head circumference**
Measure around your head with a tape measure.
- f Hand circumference**
Measure around your hand with a tape measure.
